\*Storm and 'Storm Damage':

A storm is generally categorised as such and sometimes 'named'. They can come with red or yellow warnings from weather bureaus such as Met Eireann, and can have violent winds and gusts. It may or may not be accompanied by torrential rain, hail and snow. The storm conditions occur on the same date or dates that 'storm damage' is said to have occurred and the damage is consistent with similar damage in the same general vicinity.
